

Helping growing businesses

We enjoy working with ambitious businesses on a growth path. We focus on working for businesses, as opposed to their backers, but we also like to foster close relationships with those backers.

How we can help

We specialise in work with growing companies on:

Corporate

Helping companies with their funding rounds, working closely with founders, management and external investors.

Seed and incubation funding, Series A and Series A extension - **£20m+ raised.**

10+ acquisitions

10+ funding rounds, £50m+ raised in total.

4 acquisitions

Why Roxburgh Milkins?

Our offering is commercial and no-nonsense - based around very focused service delivery and value for money. We apply our experience and market knowledge to deliver pragmatic advice the client needs to achieve the desired outcome - we don't just deliver off-the-shelf solutions. This means the client gets results and only pays for what is needed.

Clients often find their way to us because they don't get the same service from their incumbent big commercial law firms, despite paying big firm fees.

As a boutique, partner led firm, we can make sure your investee companies are properly looked after, helping them to grow and giving you peace of mind.

Call Charles van der Lande: **07891 693 944** or email: charlesvdl@roxburghmilkins.com

Commercial

Advice on grant funding and collaboration agreements (for example Innovate UK funded agreements) and with drafting and negotiating customer contracts. We have developed our Contract Manager service which helps companies to get contracts negotiated quicker - so they get paid quicker. This process driven approach to contracting and risk management also means the company is cleaner at due diligence.

Other specialisms

Specialisms we don't offer in-house (such as employment and tax) are covered by our tried and tested network of trusted lawyers and other professionals; enabling us to put together hand-picked teams ideally suited to the demands of a particular client.
